COSMETICA

## THE PASSION FOR THE CREATION OF NATURAL COSMETIC PRODUCTS

Armonie Cosmetica was born in 1996, starting from a family business with a 30-year experience in the production of cosmetics for skin, body and hair care on behalf of third parties. Our company is specialized in the realisation of products addressed to different sectors such as biological, pharmaceuticals, aesthetics, herbalist, perfumery and large-scale retail trade.

## RESEARCH AND DEVELOPMENT

From the very beginning we have invested our resources in the research and development of new natural and vegetable formulations by using high-quality raw materials from biological origin, in order to create a number of eco-ORGANIC formulations, whose application to skin is functional and delightful. Some of our cosmetic lines have obtained the AIAB, ICEA and COSMOS certifications.

## ANALYSIS AND DEVELOPMENT OF CUSTOMIZED FORMULATIONS

Our company is characterised by a great flexibility, thus allowing to fully satisfy the customers' requests:

- ✓ Study of customised formulations according to particular needs
- ✓ Biological certification of the products
- ✓ Provision of complete data sheet
- ✓ Research and selection of packaging
- ✓ Full support for legal procedures
- ✓ Carrying out of analysis and lab tests

## FAST ORDER MANAGEMENT

Thanks to our organisation, we are able to supply both small and large amounts of products within a very short time, following professionally all the steps from production and packaging to the delivery of the final product ready to be placed on the market.

## SELECTION OF RAW MATERIALS

When we realise our products, we pay the greatest attention in selecting the raw materials, whose peculiarity is a high degree of pureness. We use extracts and vegetable oils from organic farming, emulsifiers and surfactants of plant origin, natural active ingredients.

## RELIABLE PARTNER

The synergy between all the listed above elements, together with our experience in the field, our constant effort and our passion with whom we face new challenges, make us a reliable and innovative partner for the development of new projects and the realisation of cosmetics that are secure, functional and dermocompatible.
